

**THE CENTRAL NEW JERSEY CHAPTER  
OF THE  
INTERNATIONAL PLASTIC MODELERS SOCIETY  
NEWSLETTER  
WWW.CNJC-IPMS.ORG**

Iss.12,Vol 11

**CLUB INFO:** Twelve members were at the meeting.

Most of the time we talked about Superstorm Sandy. Some members had some close calls. John V. was in a shelter for fifteen days, because his street was blocked by trees and flooding had washed out the bridge.

Good memories about Pete Flanagan were also on everyone's agenda. Pete was a real great friend to all of us. He loved giving great kits at cheap or no prices. Our club builds will never be the same again! Pete Jr. thanked us for the memories, and for being at the services for his Dad.

Franlin Lee had a lot to say about two kits he brought in. A 1/350 Yamato and Italian Torpedo boat. Really big kits. Wonder how long they'll stay in the boxes!? For me, talking about kits in boxes is like when your wife, mistress or girlfriend shows you a string bikini-still on the hanger. Something's missing!

The club has a display opportunity in January at the Ocean County Library in Toms River. Members can gain access on the 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup>. We have the big cases against the wall to fill, so bring those kits.
